## BONGO COFFEE 100% ORGANIC & FAIR TRADE

**FIDO**, the first sibling of Bongo Java (Nashville's oldest coffeehouse), is named after the dog who discovered coffee. Most give credit to the Ethiopian goat herder Kaldi for discovering coffee more than 1,000 years ago. Legend has it that his flock started dancing after eating the mysterious cherries that contained seeds, which we now call coffee beans. Our research (admittedly done when we needed a name

for a café opened by a coffee company in space that housed a pet shop for 50+ years with a cool neon sign with a dog's image on it) led us to discover that Kaldi's dog truly was the overlooked hero. Fido opened in 1996 and is the second Bongo Production that now includes: Bongo Java, Fido, Grins Vegetarian Café, Bongo East, Game Point Café, Fenwick's 300 and Bongo Java Roasting Co.
